2023 SPRING PICTURES OF BULBS DISTRIBUTED IN 2022**

Queens Promenade *LB Kingston*

Many thanks again for the kind donation of bulbs. We receive a tremendous amount of compliments from passers-by thanking us for sprucing up this green space – the daffodils, hyacinths and tulips together create an impressive show.

Ealing Streetscape *LB Ealing*

Wilderness Community Garden *LB Croydon*

The bulbs have really brightened up an area along a woodland path previously covered in rhododendron porticum ... and they have been such a success! So thank you and thanks to Taylors. This will be the first year of many that people will be able to enjoy them.

Wilmington Square *LB Islington*

Kendor Gardens *LB Merton*

One of our beds tended by a mental health group who planted the bulbs. It is a great thrill and positive motivation for them to see such a brilliant display thanks to their efforts last year. Please pass on our thanks to Taylors Bulbs.

Here are the bulbs we had from you four years ago which we planted in the corner of the common. They have come up every year and continue to give pleasure.

The bulbs have been a joy and brighten up our Gardens. They have also supported our pollinator project – Pillars of Community. So, many thanks to Taylors and of course to yourselves for making this possible.

Cricklewood Station LB Barnet

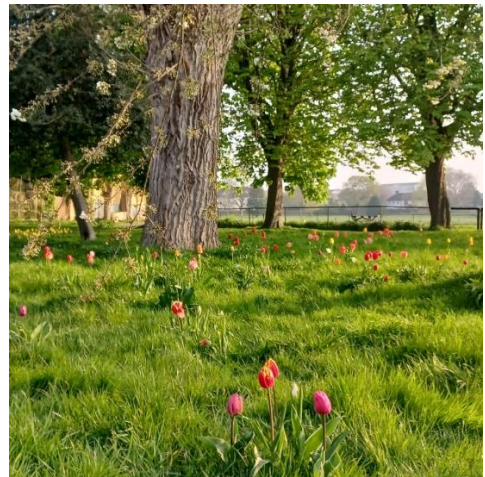

The Cricklewood Town Team planted the bulbs generously donated by Taylors Bulbs. In 2016 the Station was transformed into a community hub.... with the garden a feature of the entrance.

Best wishes and thanks from the Cluse Court Gardening Club

These are the narcissus that we received from your kind offer and planted as a border to our walled garden vegetable beds ... They delight volunteers, visitors and early bees and brighten up a somewhat dull garden in early spring.
